# James Patrick

## Data Analyst

### GIS specialist
### MSc UZH

James Patrick studied geography at the Department of Geography of the University of Zurich between 2010 and 2017 and earned a master's degree in geographic information systems (GIS).

After completing his studies and an initial internship at the Office for Waste, Water, Energy and Air in the Canton of Zurich, he works for AF-Consult Switzerland AG, where he develops GIS methods to accelerate feasibility studies of high-voltage power lines on the African continent.

Between 2019 and 2021 he works for iNovitas AG in Baden, a company specialized in the development and distribution of proprietary mobile mapping solutions. He primarily works as a GIS specialist in service management and support. In addition, he manages international accounts and projects.

Since September 2021, he has been working at Fahrländer Partner Raumentwicklung.

In 2025, he completed the CAS in Data Engineering at the Zurich University of Applied Sciences (ZHAW).
