

Silvio Aurelio

Software Engineer

Business Informatics Specialist
MSc UZH

Between 2002 and 2009, Silvio Aurelio studied Business Informatics at the University of Zurich.

From 2009 to 2012 he works at Swisscom IT Services - Finance (formerly Comit AG) as a consultant and developer focusing on data quality in the CRM area as well as web services for real estate valuation.

Afterwards, Silvio Aurelio is responsible for the development and operation of the valuation application IMBAS for Fahrländer Partner AG at CYBWELL GmbH and develops web services and interfaces in the areas of Onboarding, Data Quality, address data and GIS.

Since 2021, he has been working at Fahrländer Partner AG as a full stack developer and is in charge of the customer application IMBAS and its web interfaces.
